
Other Professional Activities

Teaching Specialization

1. ***Course Director, International Vein Congress: Endovascular Venous Surgery (IVC)***

Speaker:

“Introduction to Endovascular Venous Surgery”

“SVS PSO VQI - Vein Registry Update”

“VeinGlobal Video Theater: Improving Inflow To Iliac Stent In Severe Post-thrombotic Syndrome”

“Debate Against: Insurance coverage for treatment of C2 disease”

“Closing Comments”

Live Case Demonstration:

“Deep Venous Ultrasound”

“Superficial Venous Ultrasound”

Live Surgery Case Demonstration:

“Intravascular ultrasound, venography, ilio caval stenting”

“Endovenous laser ablation, phlebectomy, ultrasound guided-foam sclerotherapy”

“Venaseal Embolic Adhesion With Cyanoacrylate Glue”

Panelist:

“Annual V2 Symposium”

Miami Beach, FL
2017

2. ***Course Leader, Advances And New Information In Venous Disease And Its Treatment at Vascular and Endovascular Issues, Techniques, Horizons (VEITH) Symposium***

Speaker, Panelist:

“Establishing The Treatment Plan With CEAP & VCSS”

“Superficial Reflux With Obstructed Deep Veins: When And When Not To Treat”

“We Need A Joint Venous Council”

“Debate: C2 Disease Should Not Be A Covered Insurance Benefit”

“Getting A Look At Inflow With Duplex Ultrasound Prior To Endovascular Reconstruction Of Post-Thrombotic Iliocaval Disease”

“Ovarian Vein Incompetence Or Renal Vein Compression”

“Debate: Open Excisional Surgery For Post-Thrombotic Common Femoral Vein Obstruction (Endovenectomy) Is Of Limited Value In the Endovascular Era”

“Crossing Femoro-Iliocaval Chronic Total Occlusions: From Soft Wires To Sharp Harpoons”

“Debate: Femoral Vein Stenting Fails Often And Early”

New York, NY
2016

Other Professional Activities

3. *Course Director, International Vein Congress: Endovascular Venous Surgery (IVC)*

Speaker:

“Introduction to Endovascular Venous Surgery”

“Why Is The VQI-Varicose Vein Registry Critical?”

“VeinGlobal Video Theater: Management of Severe Thromboembolic Disease: Acute and Chronic Situations”

“Evidence Based Guidelines From The American Venous Forum And Society For Vascular Surgery: Venous Ulcer”

“Closing Comments”

Miami Beach, FL
2016

Live Case Demonstration:

“Deep Venous Ultrasound”

“Superficial Venous Ultrasound”

“Intravascular ultrasound, venography, ilio caval stenting”

Live Surgery Case Demonstration:

“Chemical Ablation With Varithena Polidocanaol Foam”

“Venaseal Embolic Adhesion With Cyanoacrylate Glue”

Panelist:

“Annual V2 Symposium”

4. *Course Leader, Advances And New Information In Venous Disease And Its Treatment at Vascular and Endovascular Issues, Techniques, Horizons (VEITH) Symposium*

Speaker, Panelist:

“Establishing The Treatment Plan With CEAP & VCSS”

“C1 Disease And Truncal Incompetence: To Ablate Or Not To Ablate”

“Update On The SVS-PSO VQI Venous Registry”

“Should You Worry About The Left Renal Vein When Occluding The Left Ovarian Vein”

“Crossing Femoro-Iliocaval Chronic Total Occlusions: Graduated Support And Tinkering”

New York, NY
2015

“Stent Fenestration, Z-Stents, Or Use Of The Azygous For Difficult Iliocaval Outflow”

“Difficult Femoral And Iliocaval Endovascular Reconstructions: Lessons Learned”

“Venous Atherectomy: Just Saying”

“Venous Venous Venous Workshops”

“The VenaSeal™ Closure System: Sealed by Evidence at Medtronic symposium for VEITH”

Other Professional Activities

5. *Course Director, Innovation: Furthering Endovascular Device Development*

Speaker:

“The Endovascular Revolution Story a) Effects of Disruptive Technology, b) Payment Reform – From Volume to Value, c) Information Revolution – EMR Meets Big Data, d) Device Overutilization Versus Senescence, d) Understanding Device Reimbursement”
“The VQI – More Than Just A Vascular Registry: Will It Be The Platform for IDE Trials & Post Market Surveillance”
“Video: Venous Devices In Action: When To Veer Off-Label”

Punta Cana,
Dominican
Republic
2015

6. *Course Director, International Vein Congress: Endovascular Venous Surgery (IVC)*

Speaker:

“Introduction to Endovascular Venous Surgery”
“Clinical Findings Do Not Match Duplex Ultrasound: What Do You Do?”
“VeinGlobal Video Theater: Different Devices For Venous Thromboembolic Disease – Acute And Chronic DVT Strategies”
“Evidence Based Guidelines From The American Venous Forum And Society For Vascular Surgery Diagnostic Evaluation of CVD”
“Closing Comments”

Live Case Demonstration:

“Deep Venous Ultrasound”
“Superficial Venous Ultrasound”

Miami Beach, FL
2015

Live Surgery Case Demonstration:

“Intravascular ultrasound, venography, ilio caval stenting”
“Radiofrequency ablation of great saphenous vein, phlebectomy”
“Venaseal of great saphenous vein, phlebectomy”

Live Simulation:

“Advanced CTO Crossing techniques (eg. body floss with snare), Fem-pop & tibial balloon venoplasty for inflow enhancement, Fem-pop & tibial vein “atherectomy” for debulking intraluminal fibrosis (off-label), Using TIPS kit for sharp recanalization (off-label), Swine Case Video – Coil embolization internal iliac vein, Swine Case Video – nutcracker, left renal vein stent, Swine Case Video - advanced IVC filter removal techniques (off-label)”

Panelist:

“Annual V2 Symposium”

Other Professional Activities

7. *Course Leader, Advances And New Information In Venous Disease And Its Treatment at Vascular and Endovascular Issues, Techniques, Horizons (VEITH) Symposium*

Speaker, Panelist:

“CEAP & VCSS: Establishing The Treatment Plan Based On Clinical Findings”

“Duplex Mapping Done Correctly”

“Update On The SVS-PSO VQI Venous Registry”

“Managing The Iliocaval Confluence With Interdigitating Z-Stents: Another Technique From The Mississippi Group One Must Learn”

New York, NY

“Crossing Femoro-Iliocaval Chronic Total Occlusions: Graduated Support And Tinkering”

2014

“Step By Step Use Of Cyanoacrylate For Saphenous Ablation”

“Saphenous Ablation Of Complex Anatomy: Tips And Tricks”

“Should You Worry About The Left Renal Vein When Occluding The Left Ovarian Vein?”

“Welcome: Tour Of C1 - C6 Venous Disease”

“Saphenous Ablation”

“Gloves Off in the Treatment of CVI: A Comparative Analysis of Long-term Data”

8. *Course Director, International Vein Congress: Endovascular Venous Surgery (IVC)*

Speaker:

“Introduction to Endovascular Venous Surgery”

“Professionally Edited Video: New Non-Thermal Technologies: Where Do They Fit?”

“Professionally Edited Video: Getting Out Of Endo-Trouble (Swine Model)”

“Professionally Edited Video: IlioCaval Stenting Chronic Occlusions From Hell”

“Closing Comments”

Miami Beach, FL

2014

Live Surgery Case Demonstration:

“Intravascular ultrasound, venography, ilioCaval stenting”

“1470nm laser ablation mid-thigh perforator, great saphenous vein, phlebectomy”

Live Surgery Simulation:

“Pharmacomechanical and Ultrasound Thrombolysis”

“IVC Filter Placement & Removal”

“Ovarian Vein Embolization”

Panelist:

“Annual V2 Symposium”

Other Professional Activities

9. *Course Leader, Endovenous Treatment of Varicose Veins at Vascular and Endovascular Issues, Techniques, Horizons (VEITH) Symposium*

Speaker, Panelist:

“Welcome: Endovascular Tour Of C1 - C6 Venous Disease”

“Debate: C2 Venous Disease Is Stable, Should Not Be A Covered Insurance Benefit”

“TAHOE I And II: Immediate Outcomes With A Biodegradable Implant For Refluxing GSV”

“Should You Worry About The Left Renal Vein When Occluding The Left Ovarian Vein”

“Bilateral Iliac Vein Stenting: Improving The Raju-Neglen Fenestration Technique”

“Iliocaval IVUS And Stenting: Tips And Tricks”

New York, NY
2013

10. *Course Director, International Vein Congress: Endovascular Venous Surgery (IVC)*

Speaker:

“Deep Vein Considerations Before Saphenous Ablation”

“Introduction to Endovascular Venous Surgery”

Live Simulation Demonstration:

“IVUS, Angioplasty /Stenting Iliac Vein, WallStent Fenestration With Z-Stent”

“Endotricks- wire navigation and embolization”

“IVC filter placement & retrieval, Pharmacomechanical thrombolysis”

Live Surgery Case Demonstration:

“RF Ablation- 7cm heating element- Great Saphenous Vein and Anterior Accessory Saphenous Vein, Phlebectomy”

“1470nm Laser Ablation of Small Saphenous Vein and Vein of

Giacomini, ultrasound-guided foam sclerotherapy of calf angiomas”

“Segmental RF Ablation of Great Saphenous Vein, Phlebectomy with Disposable Vein Hook”

Live Ultrasound Case Demonstration:

“Pelvic Venous Duplex Ultrasound”

“Lower Extremity Venous Duplex Ultrasound”

Panelist:

“Annual V2 Symposium”

Miami Beach, FL
2013

Other Professional Activities

11. *Course Director, Endovenous Treatment of Varicose Veins at Vascular and Endovascular Issues, Techniques, Horizons (VEITH) Symposium*

Speaker, Panelist:

- "Is There Any Treatment Available For Patients Who Already Have Postthrombotic Syndrome?"
- "My Approach To Iliac Vein Outflow Occlusive Disease"
- "Update: Cyanoacrylate For GSV Ablation"
- "Debate: C2 Venous Disease Is Progressive: Its Treatment Should Not Be A Covered Insurance Benefit"
- "Endovenous Thermal Ablation: Technical Pearls For Complex Anatomy"
- "Endovascular Venous Surgery at a Glance"

New York, NY
2012

12. *Course Director, Venous Masters Practicum: Hands on training in the Dominican Republic (VMP)*

Speaker:

- "Risks/Benefits of Foam Sclerotherapy: Question-Answer Roundtable"
- "Iliocaval and Pelvic Vein Treatment"
- "Saphenous Ablation-Phlebectomy: Technical Aspects"
- "Primary & Secondary Venous Disease"
- "What to Expect from the Masters Practicum?"

Live Surgery Case Demonstration:

- "Pharmacomechanical Thrombolysis Iliocaval Deep Vein Thrombosis, Inferior Vena Cava Filter Placement, Ovarian Vein Embolization (6 cases)"
- "Iliocaval Intravascular Ultrasound- Guided Angioplasty/Stenting (10 cases)"
- "Endovenous chemical ablation of varicose and perforating veins with foam (20 cases)"
- "Endovenous saphenous ablation with RF ClosureFAST, stab phlebectomy (4 cases)"
- "Endovenous saphenous ablation with the 1470nm laser, stab phlebectomy (4 cases)"

La Romana,
Dominican
Republic
July 2012

Live Ultrasound Demonstration:

- "Clinical and duplex evaluation of prospective patients (60 cases)"
-

Other Professional Activities

13. *Course Director, International Vein Congress: Endovascular Venous Surgery (IVC)*

Speaker:

“Introduction to Endovascular Venous Surgery”

“Which Saphenous Veins REALLY Need Ablation? Not All Reflux Needs To Be Cooked”

Live Case Demonstration:

“Pre-Recorded Case from U Miami Endovascular Research Center: IVUS, Angioplasty/Stenting, Embolization”

“Pre-Recorded Case from U Miami Endovascular Research Center: IVC filter placement & retrieval, Pharmacomechanical thrombolysis”

Live Surgery Case Demonstration:

“Intravascular ultrasound of iliac vein, Boston Scientific device”

“RF Ablation- 7cm heating element- great saphenous vein, ultrasound-guided foam sclerotherapy of venous ulcer, Intravascular ultrasound of iliac vein, Volcano device”

“RF Ablation- 3cm heating element- of anatomically complex great saphenous vein, mid-thigh perforator, phlebectomy”

“Laser Ablation great saphenous vein with 1470nm NeverTouch Direct”

Live Ultrasound Case Demonstration:

“Suprainguinal Venous Duplex Ultrasound Scanning”

“Infrainguinal Venous Duplex Ultrasound Scanning”

Panelist:

“Annual V2 Symposium”

Moderator:

“More critical vein talks”

“Venous Surgery- Standard Of Care Issues”

Miami Beach, FL
2012

14. *Course Co-director, Venous Symposium in New York City (VSNY)*

Speaker:

“Superficial Venous Disease- Case Presentation”

“Important Developments On Billing”

“Tips And Tricks In Complex Saphenous Anatomy”

“New Methods In Endovenous Ablation”

“Technical Steps To Obtain Optimal Results With Endothermal Ablation”

New York, NY
2012

Moderator:

“Building A Venous Practice”

“Presentation Of Interesting Cases”

Workshop:

“Endovenous Ablation Techniques”

Other Professional Activities

15. *Course Director, Venous Masters Practicum: Hands on training in the Dominican Republic (VMP)*

Speaker:

“Sclerotherapy”

“Saphenous vein anatomy, pathophysiology and its endovenous treatment”

“Generating the Venous Map: Who is Appropriate for Ablation?”

Live Surgery Case Demonstration:

“Endovenous chemical ablation of varicose and perforating veins with foam (20 cases)”

“Endovenous saphenous ablation with RF ClosureFAST, stab phlebectomy (4 cases)”

“Endovenous saphenous ablation with the 980nm laser, stab phlebectomy (4 cases)”

Live Ultrasound Demonstration:

“Clinical and duplex evaluation of prospective patients (60 cases)”

La Romana,
Dominican
Republic
December 2011

16. *Course Director, Endovenous Treatment of Varicose Veins at Vascular and Endovascular Issues, Techniques, Horizons (VEITH) Symposium*

Speaker, Panelist:

“Stenting Iliocaval Venous Lesions On The Basis Of Clinical Suspicion And IVUS Only”

“Saphenous Vein Ablation With Glue”

“Endovenous Thermal Ablation: Technical Pearls For Complex Anatomy”

“Endovascular Venous Surgery at a Glance”

New York, NY
2011

17. *Course Director, Venous Masters Practicum: Hands on training in the Dominican Republic (VMP)*

Speaker:

“Sclerotherapy”

“Saphenous vein anatomy, pathophysiology and its endovenous treatment”

“Generating the Venous Map: Who is Appropriate for Ablation?”

Live Surgery Case Demonstration:

“Endovenous chemical ablation of varicose and perforating veins with foam (20 cases)”

“Endovenous saphenous ablation with RF ClosureFAST, stab phlebectomy (4 cases)”

“Endovenous saphenous ablation with the 980nm laser, stab phlebectomy (4 cases)”

Live Ultrasound Demonstration:

“Clinical and duplex evaluation of prospective patients (60 cases)”

La Romana,
Dominican
Republic
July 2011

Other Professional Activities

18. *Course Director, International Vein Congress: Endovascular Venous Surgery (IVC)*

Speaker:

"I'll leave You With A Positive Note ..."

"Intersocietal Venous Insurance and Government Relations Committee (IVIGRC): confronting bogus policies used by insurers"

"Saphenous Trunk Closure With Glue: Data From Animal & First-In-Man Trials?"

"1470 nm laser ablation: 6W-40 J/cm versus 6W-30 J/cm"

"Introduction to Endovascular Venous Surgery"

Miami Beach, FL
2011

Live Surgery Case Demonstration:

"Laser Ablation great saphenous vein and mid-thigh perforator, Phlebectomy, Ultrasound-guided foam sclerotherapy"

"RF Ablation of aneurysmal great saphenous vein, Phlebectomy"

Live Ultrasound Case Demonstration:

"Small saphenous vein mapping"

"Great saphenous vein mapping"

19. *Course Co-director, Venous Symposium in New York (VSNY)*

Speaker, Panelist:

"Treatment of Accessory and Non-Saphenous Veins"

"Accreditation of Your Office-based Vascular lab: A Must"

"Treatment of Accessory and Non-Saphenous Veins"

"Modern Therapy of Varicose Veins"

"Ultrasound Shows Pathology in the Superficial and Deep Veins, What to do?"

New York, NY
2011

Moderator:

"Building a Venous and Cosmetic Practice"

Workshop:

"Obtaining access with ultrasound guidance & UG sclerotherapy and Endovenous ablation"

20. *Course Director, Venous Masters Practicum: Hands on training in the Dominican Republic (VMP)*

Speaker:

"Sclerotherapy"

"Saphenous vein anatomy, pathophysiology and its endovenous treatment"

"Generating the Venous Map: Who is Appropriate for Ablation?"

Live Ultrasound Case Demonstration:

"Clinical and duplex evaluation of prospective patients (60 cases)"

Live Surgery Case Demonstration:

"Endovenous chemical ablation of varicose and perforating veins with foam (20 cases)"

"Endovenous saphenous ablation with RF ClosureFAST, stab phlebectomy (4 cases)"

"Endovenous saphenous ablation with the 980nm laser, stab phlebectomy (4 cases)"

La Romana,
Dominican
Republic
December 2010

Other Professional Activities

21. *Course Director, Endovenous Treatment of Varicose Veins at Vascular and Endovascular Issues, Techniques, Horizons (VEITH) Symposium*

Speaker, Panelist:

“Venous Laser Updates: Long Wavelengths Allow Usage Of Less Power And Lower Energy Density” New York, NY
2010
“Endovenous Thermal Ablation: Technical Pearls For Complex Anatomy”
“Endovascular Venous Surgery at a Glance”

22. *Course Director, Venous Masters Practicum: Hands on training in the Dominican Republic (VMP)*

Speaker:

“Sclerotherapy”
“Saphenous vein anatomy, pathophysiology and its endovenous treatment”
“Generating the Venous Map: Who is Appropriate for Ablation?”

Live Surgery Case Demonstration:

“Endovenous chemical ablation of varicose and perforating veins with foam (20 cases)”
“Endovenous saphenous ablation with RF ClosureFAST, stab phlebectomy (4 cases)”
“Endovenous saphenous ablation with the 980nm laser, stab phlebectomy (4 cases)”

Live Ultrasound Case Demonstration:

“Clinical and duplex evaluation of prospective patients (60 cases)”

La Romana,
Dominican
Republic
July 2010

23. *Course Director, International Vein Congress: Endovascular Venous Surgery (IVC)*

Speaker:

“Accreditation of Your Office-based Surgery Center and Vascular Laboratory: Critical for the Future”
“Do Incompetent Perforators Cause Ulcers? Or Is It Guilt by Association?”
“The Recovery Trial: Primary Investigator’s Interpretation”
“Introduction to the Office-based Vein Practice”

Live Surgery Case Demonstration:

“Laser Ablation of mid-thigh perforator and GSV, Phlebectomy”
“RF Ablation of the Kinked GSV, Phlebectomy, Ultrasound-guided Foam Sclerotherapy”

Mini-Symposium Director:

“Duplex Ultrasound Vein Mapping”

Miami Beach, FL
2010

Other Professional Activities

24. *Course Director, Venous Masters Practicum: Hands on training in the Dominican Republic (VMP)*

Speaker:

“Sclerotherapy”

“Saphenous vein anatomy, pathophysiology and its endovenous treatment”

“Generating the Venous Map: Who is Appropriate for Ablation?”

Live Surgery Case Demonstration:

“Endovenous chemical ablation of varicose and perforating veins with foam (20 cases)”

“Endovenous saphenous ablation with RF ClosureFAST, stab phlebectomy (4 cases)”

“Endovenous saphenous ablation with the 980nm laser, stab phlebectomy (4 cases)”

Live Ultrasound Case Demonstration:

“Clinical and duplex evaluation of prospective patients (60 cases)”

La Romana,
Dominican
Republic
December 2009

25. *Course Director, Endovenous Treatment of Varicose Veins at Vascular and Endovascular Issues, Techniques, Horizons (VEITH) Symposium*

Speaker, Panelist:

“Foam Versus Liquid Sclerotherapy In The Management Of Varicose Veins”

“Deep Vein Considerations During Superficial Venous Treatment”

“Which Patients Are Not Suitable For Endovenous Thermal Ablation?”

New York, NY
2009

26. *Course Director, Venous Masters Practicum: Hands on training in the Dominican Republic (VMP)*

Speaker, Panelist:

“Sclerotherapy”

“Saphenous vein anatomy, pathophysiology and its endovenous treatment”

“Generating the Venous Map: Who is Appropriate for Ablation?”

Live Surgery Case Demonstration:

“Endovenous chemical ablation of varicose and perforating veins with foam (20 cases)”

“Endovenous saphenous ablation with RF ClosureFAST, stab phlebectomy (6 cases)”

“Endovenous saphenous ablation with the 980nm laser, stab phlebectomy (6 cases)”

Live Ultrasound Case Demonstration:

“Clinical and duplex evaluation of prospective patients (60 cases)”

La Romana,
Dominican
Republic
July 2009

Other Professional Activities

27. *Course Director, International Vein Congress: Endovascular Venous Surgery (IVC)*

Speaker:

“Introduction to the Office-based Vein Practice”

Live Case Demonstration:

“Diagnostic ultrasound for Venous Mapping”

Miami Beach, FL

Live Surgery Case Demonstration:

2009

“Laser Ablation of Vein of Popliteal Fossa Aneurysm, thigh extension of SSV, and AASV”

“Laser Ablation of the GSV: Phlebectomy”

Mini-Symposium Director:

“Optimizing the Vein Center Laboratory”

28. *Course Director, Venous Masters Practicum: Hands on training in the Dominican Republic (VMP)*

Speaker, Panelist:

“Sclerotherapy”

“Saphenous vein anatomy, pathophysiology and its endovenous treatment”

“Generating the Venous Map: Who is Appropriate for Ablation?”

La Romana,

Live Surgery Case Demonstration:

Dominican

“Endovenous chemical ablation of varicose and perforating veins with foam (20 cases)”

Republic

“Endovenous saphenous ablation with RF ClosureFAST, stab phlebectomy (4 cases)”

December 2008

“Endovenous saphenous ablation with the 980nm laser, stab phlebectomy (4 cases)”

Live Ultrasound Case Demonstration:

“Clinical and duplex evaluation of prospective patients (60 cases)”

29. *Course Director, Endovenous Treatment of Varicose Veins at Vascular and Endovascular Issues, Techniques, Horizons (VEITH) Symposium*

Speaker, Panelist:

“Recovery Trial: Conclusions From A Multicenter Randomized Trial Comparing The ClosureFAST Treatment To Endovenous Laser”

New York, NY

“Deep Vein Considerations During Superficial Venous Treatment”

2008

“Lessons Learned After 3000 Venous Ablations”

“CEAP: Anatomy: Superficial, Perforator, Deep”

Other Professional Activities

30. *Course Director, Venous Masters Practicum: Hands on training in the Dominican Republic (VMP)*

Speaker, Panelist:

“Lessons learned: 3000 cases”

“Saphenous vein anatomy, pathophysiology and its endovenous treatment”

“Generating the Venous Map: Who is Appropriate for Ablation?”

Live Surgery Case Demonstration:

“Endovenous chemical ablation of varicose and perforating veins with foam (6 cases)”

“Endovenous saphenous ablation with RF ClosureFAST, stab phlebectomy (4 cases)”

“Endovenous saphenous ablation with the 980nm laser, stab phlebectomy (4 cases)”

Live Ultrasound Case Demonstration:

“Clinical and duplex evaluation of prospective patients (60 cases)”

La Romana,
Dominican
Republic
July 2008

31. *Course Director, International Vein Congress: Endovascular Venous Surgery (IVC)*

Speaker:

“Office-based Surgery: Accreditation”

“V2 Symposium: Ask the experts/ Beyond the basics”

“Dialysis Access Graft Management: Can We Eliminate the Need for a Hospital?”

“What Can Be Done with a Good C-Arm Fluoroscope and an Ultrasound?”

“Deep vein considerations during superficial venous treatment”

“Introduction to the Office-based Vein Practice”

Live Case Demonstration:

“Diagnostic ultrasound for Venous Mapping”

Live Surgery Case Demonstration:

“Spider Telangiectasia Treatment with 940nm Laser”

“Primary-Assisted Ablation with Foam: Spider Telangiectasia Treatment with 532nm & 1064nm Laser”

“RF Ablation of the AASV with ClosureFAST: Phlebectomy”

Mini-Symposium Director:

“The Complete Office-based Endovascular Center”

“Optimizing the Vein Center Laboratory”

Miami Beach, FL
2008

Other Professional Activities

32. **Course Director, Venous Masters Practicum in Office-Based Venous Procedures (VMP)**

Speaker, Panelist:

“Lessons learned: 2500 cases”

“Saphenous vein anatomy, pathophysiology and its endovenous treatment”

“Generating the Venous Map: Who is Appropriate for Ablation?”

Live Surgery Case Demonstration:

“Endovenous chemical ablation of varicose and perforating veins with foam (6 cases)”

“Endovenous saphenous ablation with RF ClosureFAST, stab phlebectomy (4 cases)”

“Endovenous saphenous ablation with the 980nm laser, stab phlebectomy (4 cases)”

Live Ultrasound Case Demonstration:

“Clinical and duplex evaluation of prospective patients (60 cases)”

La Romana,
Dominican
Republic
December 2007

33. **Course Director, Endovenous Treatment of Varicose Veins at Vascular and Endovascular Issues, Techniques, Horizons (VEITH) Symposium**

Speaker, Panelist:

“Pulse*Spray Sclerotherapy Study: A Pilot Study”

“FDA Approved Sodium Tetradecyl Sulfate *versus* Compounded Sodium Tetradecyl Sulfate for Venous Sclerotherapy”

“Lessons Learned after 2000 Venous Ablations”

“Debate: Without Effective Saphenous Vein Ablation Patients Will Develop Varicose Vein Recurrence In Short Order - In The Majority Of Cases”

“We’ve “Got” Plenty Of Data To Show That Endovenous Thermal Ablation Is Superior To Open Surgery?”

New York, NY
2007

34. **Course Director, “Endovenous Treatment of Varicose Veins: An Emerging Subspecialty” at Transcatheter Cardiovascular Therapeutics (TCT)**

Speaker, Panelist:

“Endovenous Laser and Radiofrequency Ablation of the Saphenous Vein: Is One Better than the Other?”

“Why Endovenous Ablation has Replaced Traditional Surgery”

Washington, DC
2007

Other Professional Activities

35. *Course Director, Masters Practicum in Office-Based Venous Procedures*

Speaker, Panelist:

“Lessons learned: 2000 cases”

“Saphenous vein anatomy, pathophysiology and its endovenous treatment”

“Generating the Venous Map: Who is Appropriate for Ablation?”

Live Surgery Case Demonstration:

“Endovenous chemical ablation of varicose and perforating veins with foam (6 cases)”

“Endovenous saphenous ablation with RF ClosureFAST, stab phlebectomy (4 cases)”

“Endovenous saphenous ablation with the 980nm laser, stab phlebectomy (4 cases)”

Live Ultrasound Case Demonstration:

“Clinical and duplex evaluation of prospective patients (40 cases)”

La Romana,
Dominican
Republic
2007

36. *Course Director, International Vein Congress: Endovascular Venous Surgery (IVC)*

Speaker:

“Varicose Veins Meets Dialysis Access”

Live Case Demonstration:

“Percutaneous Management of the Failing AV Fistula”

Miami Beach, FL
2007

37. *Course Director, Dialysis Access Management for Office-based Practitioners*

Speaker, Panelist:

“V2 Symposium: Ask the experts/ Beyond the basics”

“Deep vein considerations during superficial venous treatment”

“Lessons Learned after 2000 Venous Ablations”

“Introduction to the Office-based Vein Practice”

Live Case Demonstration:

“Diagnostic ultrasound for Venous Mapping”

Live Surgery Case Demonstration:

“RF Ablation of the GSV with ClosureFAST: Treatment of Spider Telangiectasias with 532nm & 1064nm Laser”

“Endovenous laser ablation of the SSV: NeverTouch Laser Fiber Demonstration”

“Endovenous laser ablation of the SSV: Pulse-spray Sclerotherapy: Ultrasound-guided Sclerotherapy: Phlebectomy”

Mini-Symposium Director:

“Venous ultrasound: Anatomy, pathophysiology, and percutaneous access”

Miami, FL
2007

Other Professional Activities

38. *Course Director, "Endovenous Management of Varicose Veins" at Vascular and Endovascular Issues, Techniques, Horizons (VEITH) Symposium*

Speaker, Panelist:

"Debate: Foam sclerotherapy will not eliminate other treatments for varicose veins: What are its uses?"

"Debate: Adjunctive procedures should be performed at the time of endovascular treatment of valvular and perforator insufficiency"

"Debate: Only troglodytes perform open surgery for varicose vein treatment: Here's why"

New York, NY
2006

39. *Course Director, Masters Practicum in Office-Based Venous Procedures*

Speaker, Panelist:

"Lessons learned: 1500 cases"

"Saphenous vein anatomy, pathophysiology and its endovenous treatment"

Live Surgery Case Demonstration:

"Endovenous chemical ablation of perforating veins with foam (3 cases)"

"Endovenous saphenous ablation with the 980nm laser, stab phlebectomy (8 cases)"

La Romana,
Dominican
Republic
2006

40. *Course Director, International Vein Congress: Endovascular Venous Surgery (IVC)*

Speaker:

"Do I need accreditation for my In-office Vein Center? Setup of the office operating room"

"V2 Symposium... Ask the experts beyond the basics"

"Treating accessory veins, small saphenous veins, Giacomini veins, and recurrences after surgical stripping"

"Duplex imaging Pre-op, Intra-op, and Post-op"

"Pro: Reflux and bulging veins- Treat both at same setting"

"Introduction to In-office Vein Work"

Miami Beach, FL
2006

Live Case Demonstration:

"Diagnostic ultrasound as applied to treatment"

Live Surgery Case Demonstration:

"Endovenous chemical ablation of the GSV"

"Laser Assisted Distal Stripping (LADS) with endovenous sheath"

"Radiofrequency Closure of GSV and phlebectomy of varicose clusters"

Mini-Symposium Director:

"Hands-on ultrasound training: Anatomy, pathophysiology, and percutaneous access"

Other Professional Activities

41. *Course Director, International Vein Congress: Endovascular Venous Surgery (IVC)*

Speaker:

“Do I need accreditation for my In-office Vein Center? Setup of the office operating room”

“Endovenous treatment of Klippel- Trenaunay Syndrome”

“Advanced endovenous ablation: Anterior and posterior accessory veins, Giacomini vein, surgical adjuncts”

“How thermal ablation replaced stripping”

“Why varicose veins? ...how tumescent anesthesia saved my marriage”

Miami Beach, FL
2005

Live Case Demonstration:

“Diagnostic ultrasound as applied to treatment”

Live Surgery Case Demonstration:

“Cutaneous laser treatment of spider telangiectasias”

“Laser Assisted Distal Stripping: The LADS Procedure”

“Radiofrequency Closure of GSV and phlebectomy of varicose clusters”

Workshop Director:

“Hands-on ultrasound training: Anatomy, pathophysiology, and percutaneous access”

42. *Course Director, Miami Vein Center In-Office Tutorials*

Speaker:

“Overview of Saphenous Vein Reflux”

Live Surgery Case Demonstration:

“Sclerotherapy / cutaneous laser treatment of telangiectasias”

“Endovenous laser ablation / catheter directed foam sclerotherapy for recurrent varicose veins after stripping”

“Endovenous laser ablation / phlebectomy of Great Saphenous Vein”

“Radiofrequency closure of GSV and phlebectomy of varicose clusters”

Miami, FL
2004

Workshop Director:

“Ultrasound guided, percutaneous access with blue phantom model”

“Saphenous imaging and reflux detection with duplex ultrasound”

43. *Course Director, Miami Vein Center In-Office Tutorials*

Speaker:

“Overview of Saphenous Vein Reflux”

Live Surgery Case Demonstration:

“Sclerotherapy / cutaneous laser treatment of telangiectasias”

“Endovenous laser ablation Small Saphenous Vein / phlebectomy”

“Endovenous laser ablation / LADS / phlebectomy of Great Saphenous Vein”

“Radiofrequency closure of GSV and phlebectomy of varicose clusters”

Miami, FL
2004

Workshop Director:

“Ultrasound guided, percutaneous access with blue phantom model”

“Saphenous imaging and reflux detection with duplex ultrasound”

Other Professional Activities

44. *Course Director, International Vein Congress: Endovascular Venous Surgery (IVC)*

Speaker:

“Do I need accreditation for office surgery? Pre & post-op management issues...medical clearance, monitoring, pain management, U.S. surveillance, bandaging, etc.”

“Video: Endovenous treatment of reticular veins with 200micrometer laser fiber”

“Endovenous treatment of Klippel-Trenauney Syndrome”

“Mechanism of action: endovenous laser vs. radiofrequency”

“Prevalence and clinical importance of anatomic variations of the lower body veins”

“Why get involved with varicose veins? How tumescent anesthesia saved my marriage”

Key Biscayne,
FL
2004

Live Case Demonstration:

“Diagnostic ultrasound as applied to treatment”

Live Surgery Case Demonstration:

“Double- puncture percutaneous access Great Saphenous Vein, ablation with 980nm laser”

“Percutaneous access of GSV with micropuncture needle, placement of tumescent anesthesia followed by laser ablation of GSV with 940nm diode laser, and phlebectomy”

“Radiofrequency Closure of GSV and phlebectomy of varicose clusters”

Workshop Director:

“Saphenous imaging and physiology with emphasis on ultrasound machine functions”

Panelist:

“Panel discussion of previous day’s live cases, endovenous techniques”

45. *Course Co-director, International Symposium on Endovascular Therapy (ISET)*

Speaker:

“In-office venous surgery with tumescent anesthesia is safe: 565 cases”

“RFA vs. Laser Ablation in the Treatment of Varicose Veins”

Miami Beach, FL
2004

Live Surgery Case Demonstration:

“Radiofrequency ablation of the saphenous vein, phlebectomy”

Other Professional Activities

46. *Course Director, International Varicose Vein Congress: In-office Techniques (IVVC)*

Speaker:

“Do I need accreditation for Level 1 office surgery?”

“Video: Endovenous treatment of reticular veins with 200micrometer laser fiber”

“Endovenous treatment of Klippel-Trenauney Syndrome”

“Clinical and basic science data for endovenous laser vs radiofrequency... is one more effective than the other?”

“Treat only the thigh portion of the great saphenous vein”

“Ultrasound is the key to understanding varicose veins... the doctor must be self-sufficient sonographer for accurate treatment”

“Why get involved with varicose veins... how tumescent anesthesia saved my marriage?”

Key Biscayne,

Live Surgery Case Demonstration:

FL

“Laser therapy of telangiectasias: 940nm diode laser and 1064 nm NEO: Yag lasers”

2003

“Short saphenous vein closure with 810nm diode laser”

“Phlebectomy of varicosities with tumescent anesthesia and sclerotherapy of telangiectasias”

“Percutaneous access of GSV with micropuncture needle, placement of tumescent anesthesia followed by laser ablation of GSV with 980nm diode laser”

“RF Closure of GSV and phlebectomy of varicose clusters”

Workshop Director:

“Saphenous imaging and physiology with emphasis on ultrasound machine functions”

“Great and Short saphenous vein imaging”

“Ultrasound guided vein access with blue phantom models”
